ABOUT NIST

Founded in 1901, NIST is a non-regulatory federal agency within the U.S. Department of Commerce. NIST's mission is to promote U.S. innovation and industrial competitiveness by advancing measurement science, standards, and technology in ways that enhance economic security and improve our quality of life.

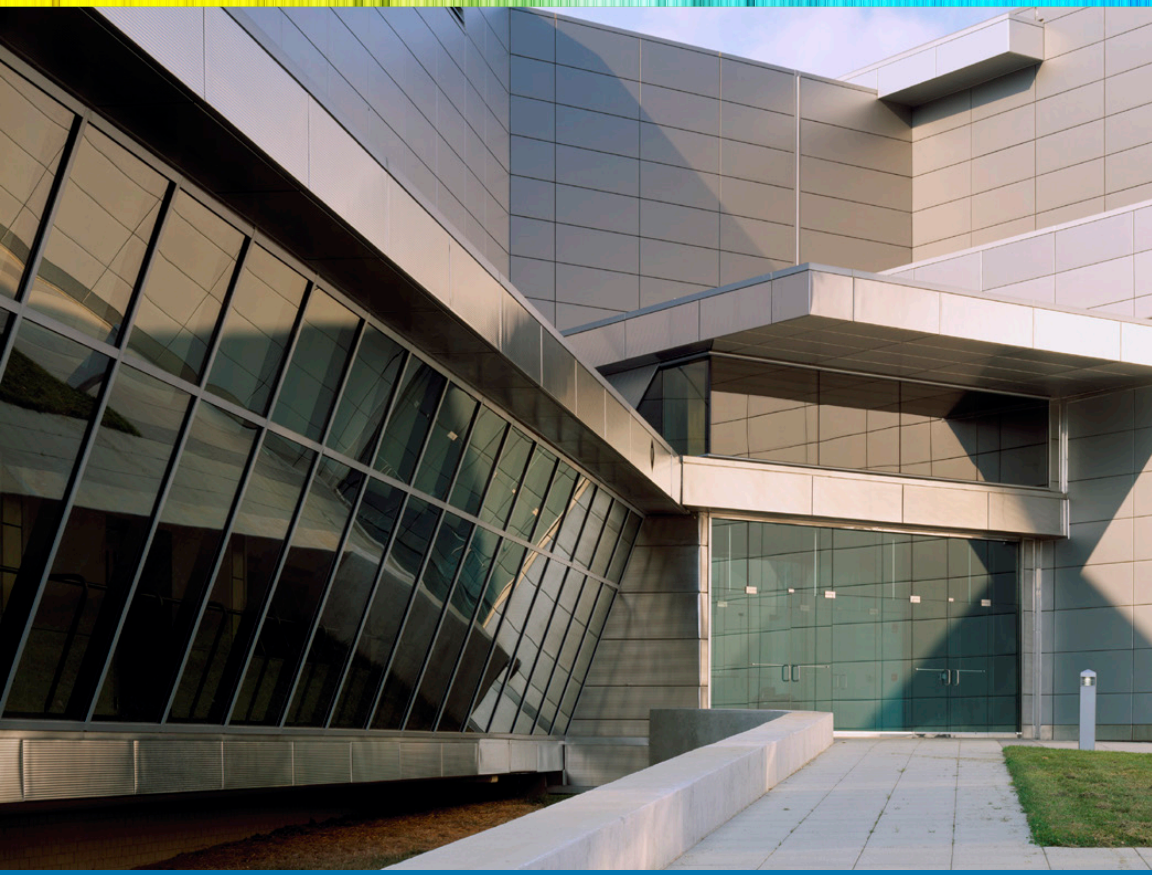
NIST CONFERENCE PROGRAM



NIST
National Institute of Standards and Technology
U.S. Department of Commerce

NIST CONFERENCES

The National Institute of Standards and Technology (NIST) located in Gaithersburg, Md. offers federal agencies a secure, cost-effective and state-of-the-art meeting facility. NIST offers 16 conference rooms that can host up to 750 attendees as well as a full-service conference program to ensure a successful event in accordance with all government rules and regulations.

NIST conferences have repeatedly attracted leading experts in the fields of science and technology worldwide, and our facilities offer a sophisticated setting for sharing research results and building vital partnerships with industry, academia, and government.

FULL-SERVICE, SECURE, COST-EFFECTIVE

- Two large, fully-equipped auditoriums, from 4,000 to 10,730 sq. ft. in size
- 14 state-of-the-art lecture and breakout rooms, from 411 to 2,069 sq. ft. in size
- Courtyard and atrium ideal for networking events
- In-house caterer
- Retreat setting with beautifully landscaped grounds in the Washington Metropolitan Area
- Ample free parking
- On-site full-service meeting planners

CONFERENCE MANAGEMENT

The NIST Conference Program is a full-service meeting department. Our professional staff are experts at coordinating conference logistics and registration. We work closely with NIST's in-house audiovisual group, who can provide webcast capabilities.

For more than 20 years, NIST has provided dynamic and cost-effective conferences that bring together leading experts from government, industry, and academia.
