

NIST

National Institute of Standards and Technology

U.S. Department of Commerce

NIST promotes U.S. innovation and industrial competitiveness by advancing measurement science, standards, and technology in ways that enhance economic security and improve our quality of life. As a premier scientific research organization, NIST's student programs offer valuable hands-on experience working with cutting-edge technology. Opportunities are available for students at all levels and in a variety of scientific and administrative positions.

Student Programs

Summer High School Internship Program

A summer volunteer program for high school juniors and seniors, SHIP provides cutting-edge research experience for students interested in science.

nist.gov/hrmd/staffing/ship.cfm

Student Temporary Employment Program

Most commonly used for summer employment, STEP allows students to work year round while in school in part-time or full-time positions.

nist.gov/hrmd/staffing/step.cfm

Student Career Experience Program

SCEP, or Co-op program, offers students with part-time or full-time experience directly related to their educational program and career goals. Students who meet all of the program requirements may be converted to a permanent position.
