Please see my comments below (I ve attached them as well)

COMMENTS MATRIX FOR NIST CSF 2 0

#	ORGANIZATION & POC Name, Phone, and E-mail	Line Number	Page	Para	Comment Type	Comments and Justification	Resolution	A/R/P
	Ubicquia, Shivani Singh,	105-113	2		S	'Understand and Assess' – include a few examples of how they could identify cybersecurity gaps (i e vuln scanning, pen testing, etc)		
	Ubicquia, Shivani Singh,	311-312	9		A	Make it more obvious in the Fig 3 Cybersecurity Framework Profiles 'Internal and External Stakeholder Expectations' rather than just 'Stakeholder Expectations'		Choose an item
	Ubicquia, Shivani Singh,	364-369	11		S	Step 2 in creating and using Cybersecurity Framework Profiles – include ways of gathering information needed to prepare the Profiles – i e interviewing individual SME's/holding a large meeting with SME's to get their feedback on what would make up the profile		Choose an item
	Ubicquia, Shivani Singh,	488-532	14		S	3.4.1 'Improving Communication Across the Organization - add in the users (employees) role and how to properly communicate the framework to them as users are some of the key stakeholders you d want educated on this to better understand the importance of security risks and help to achieve the objectives created by upper management.		
	Ubicquia, Shivani Singh,	N/A	37		C	For Awareness and Training (PR.AT) category – build on this topic to also cover the importance of phishing campaigns/training annual security awareness training all-staff meetings to discuss the importance of security and ways to better secure the org etc.		
	Ubicquia, Shivani Singh,	N/A	N/A		S	Define key metrics to include for security risks in the Implementation Examples doc (reference NIST 800-55).		
	Ubicquia, Shivani Singh,	N/A	N/A		N/A	For the Implementation Examples doc – ask different companies for examples and see which are most common include those actual examples in a section.		

Shivani Singh
Sr. Security Analyst
