

Appendix H NTEP INITIAL VERIFICATION REPORT FORM

Initial Verification is the first official inspection and test of a commercial weighing and measuring device by a weights and measures official. It is another element in the metrological control system. These tests offer an invaluable means to check production devices and many of their features against the current requirements of *NIST Handbook 44* and to verify the information provided in the National Type Evaluation Program (NTEP) Certificate of Conformance is both accurate and correct.

The information gathered by the states during Initial Verification may be submitted through this simple form to provide feedback to NTEP. NTEP will use this information to assist in the process of verifying that production devices remain in compliance and that the information on the NTEP Certificate of Conformance remains accurate.

GENERAL INFORMATION					
Date:	First Name:	Last Name:			
Email Address (required):					
Weights and Measures Jurisdiction Reporting:					
DEVICE INFORMATION					
NTEP CC Number:					
Make of Device (CC Holder):					
Model:
