Subject: R.DS-8 COBIT5 Informational Reference BAI03.05.4
To: "cyberframework@nist.gov" <cyberframework@nist.gov>

Going through the framework, I identified that the new sub-category, PR.DS-8 CobiT5 informational reference BAI03.05.4. Is this an error or does the reference refer to BAI.3.05 Step -4: Implement audit trails during configuration and integration of hardware and infrastructural software to protect resources and ensure availability and integrity.

Thank you,

Michael Bush
