On line #897 which refers to, "Council on CyberSecurity (CCS) Top 20 Critical Security Controls (CSC): <http://www.counciloncybersecurity.org>". The ownership of this document has been transferred over to the Center for Internet Security (CIS) and should be referred to as *CIS Critical Security Controls for Effective Cyber Defense (CIS Controls)*: <https://www.cisecurity.org>. The references to CCS CSC should be changed to CIS CSC or CIS Controls.

Thank you,
