SUBJECT: Upcoming Mobile ID Work Group Meeting

The NIST Mobile ID work group was formed as a result of the NIST Mobile ID workshop held last September. The next meeting has been scheduled for June 4-5, 2008 at NIST to continue the development of a minimum set of operational requirements for enrollment, identification, and verification functions using Mobile ID devices.

During the previous workshop that was held March 5-6, a "Strawman" document was discussed and several updates, corrections, and modifications were proposed. These changes will be incorporated into the next version of the "Strawman" scheduled to be released by May 1, 2008. At the June meeting, submitted comments on this updated document will be reviewed and discussed. Any issues or aspects of Mobile ID that you would like to have discussed during the June meeting should be forwarded to me as soon as possible so that these topics can be placed on the agenda.
