The [Cybersecurity Career Week \(CCW\)](#) focuses on local, regional, national, and international interests to inspire, educate, and engage children through adults to pursue careers in cybersecurity. Cybersecurity Career Week takes place the third week in October during [Cybersecurity Awareness Month](#) and each day of the week-long celebration provides for learning about the contributions, innovations, and opportunities that can be found by exploring cybersecurity as a field of study or career choice.

During the week, learners of all ages, educators, parents, employers, and the community will participate in the recognition of how cybersecurity plays a vital role in global stewardship, and how building a cybersecurity workforce enhances global security and promotes economic prosperity.

Cybersecurity Career Week creates excitement and increases public awareness and engagement in building a strong cybersecurity workforce. It emphasizes the demand for cybersecurity work roles, increases awareness around the multiple career options associated with cybersecurity, and highlights the numerous pathways to enter the field.

Numerous CCW supporters and stakeholders have committed to participating in and hosting events in support of Cybersecurity Career Week. For information on all events and to find an event near you, visit nist.gov/nice/ccw.
