**Subj: Draft NISTIR 8312, dated August 2020, “Four Principles of Explainable Artificial Intelligence”**

In response to the “Call for Patent Claims,” Vетtd, Inc., wishes to disclose the existence of a pending patent application (U.S. 2020/0285971) with claims relating to the draft publication. Vетtd provides assurance that a license to any essential patent claim(s) of this pending application will be made available to applicants desiring to utilize the license for the purpose of complying with the guidance or requirements in the Information Technology Laboratory draft publication under reasonable terms and conditions that are demonstrably free of any unfair discrimination. Further, Vетtd will include in any documents transferring ownership of patents subject to this assurance, provisions sufficient to ensure that the commitments in the assurance are binding on the transferee, and that the transferee will similarly include appropriate provisions in the event of future transfers with the goal of binding each successor-in-interest regardless of whether such provisions are included in any relevant transfer documents.

Please let me know if you have any questions or need anything further at this point. On behalf of Vетtd, Inc.,

**JEFF BRENNAN**

General Counsel & Chief Privacy Officer at [Vетtd](#)
