

CSOC

Try the **BRAND NEW** Cybersecurity Operations Center!

Having trouble with cyber-blemishes? CSOC can help keep you cyber-beautiful!

Don't you just hate it when a phishing email puts a blemish on an otherwise wonderful evening? Now, you don't have to live with the fear of phishing emails and other cyber incidents ruining your night... just use CSOC! That's right, the Cybersecurity Operations Center knows how to deal with phishing, ransomware, and hackers so you don't have to. **And using CSOC is EASY.** Just take that phishing email or any other cyber incident you come across and forward it to... INCIDENT@ihs.gov. And if that's too many letters to type, just click the REPORT PHISHING button on your Outlook ribbon!

CSOC also has a new phone number that is staffed 24 x 7: 866-347-2762 (866-DIS-CSOC)!

I know it seems too easy, but it really is **JUST THAT SIMPLE.** Forwarding to Incident@ihs.gov, clicking Report Phishing, or calling 866-DIS-CSOC allows the CSOC team to stay on top of new threats at IHS and keeps the entire agency **CYBER-BEAUTIFUL!**

AND CLIP THIS COUPON SO YOU DON'T FORGET THESE VERY IMPORTANT "CYBER-BEAUTY TIPS"

- Keep your desk clean of sensitive information!
- When not directly connected to the IHS network, use the IHS virtual private network (VPN) for IHS business!
- Be mindful of surroundings when taking sensitive calls!
- Check your meeting room for sensitive papers before exiting!

For questions or further information, please contact the IHS Office of Information Technology, Division of Information Security, at cybersecurity@ihs.gov.
