---	--	---

Internally-designed custom image for Cybersecurity Awareness Month. The chameleon represents adapting to constantly morphing threats and how much of our information seamlessly hides in plain sight.

A landing page with a light blue background and bokeh effects. It features a large trophy in the center. Text includes: 'Days until Phishing Tournament 2024 Kick Off!', '00 days', 'Tournament kicks off the week of October 14.', a green button 'Register by October 7 to participate!', and a dark blue button 'Click here!' for 'Phishing Tournament Rules and Leaderboard'.

Main landing page for events.

Included links for 2024 Phishing tournament Information.

Rules and Leaderboard

Expand the sections below to view the 2024 Phishing Tournament metrics. *Note, it may take a few seconds for each leaderboard to appear.*

The Phishing Tournament is intended to be a fun and challenging opportunity for staff to see various phishing emails without any risk. Tournament results will be based on:

1. If you report a phish (as well as the time from delivery to report)
2. If you fall susceptible by clicking on a link or opening an attachment

There is **no negative impact** if you don't report or fall susceptible. You will not be enrolled in remedial training. There **will be prizes** though for those that report all the phish within 24 hours and don't fall susceptible! See the FAQ section below for more information.

Tournament Dates: October 15 through October 18

Sign up: [MS Forms](#) (sign up by October 7)

Using the same chameleon “catching” phishing emails with a reminder to report.

Phishing Leaderboards

^ Top 25 Quickest Reports for each Phish (and screenshots of the phishes)

This ranking is determined by reporting the specified phish without falling susceptible, sorted by speed to report. At the top of each ranking, you can use the link to open a screenshot of the phish with the indicated clues highlighted.

Approximately 2 days after each phish is delivered, you'll see the rankings appear here.

Phish 1 View phish with indicated clues.		Phish 2 View phish with indicated clues.	
Email	Seconds	Email	Seconds
	43		31
	46		34
	47		37
	51		37
	53		40
	58		40
	60		41
	60		41

Tournament**
Oct. 15 - 18
sign up by Oct. 4

Phishing Tournament Alert: Get Hooked!

In honor of [Cybersecurity Month](#) happening in October, we're diving into a Phishing Tournament that's bound to catch your interest! You'll get points for every phish you report **and** don't fall susceptible to. **The phishing leaderboard results will be published showing:**

- Top 25 fastest reporters for each phish (who didn't fall susceptible)
- Overall Top 25 fastest reporters for all phish (who didn't fall susceptible)

1. Register [here](#) and sign up by **October 4th - no bait-and-switch here!** (Sign up extended to October 7th)
2. Join Us: Test your phishing detection skills!
3. Tournament will take place October 15 - 18.
4. Win Prizes: Prizes (Stanley mug) will be randomly awarded for 100% accuracy - reporting all of the phish **AND** not falling susceptible (clicking links, opening attachments, etc.). [See the FAQ and Prize section for details.](#)

Let's get phishing!

Also, in October we will have a speaker series with guest speakers. [Click here](#) (Be sure to register for those sessions. Check out [this article](#) for more information. The more events you attend, the more chances you'll have at a prize!

Oct. 16 - Digital Deception
Oct. 23 - History of
Cryptography

Sign up for the Phishing Tournament (date extended) and Speaker Series sessions

Phishing Tournament Alert: Get Hooked! Sign up extended to October 7.

1. Register [here](#) and sign up by **October 7th** - no bait-and-switch here!
2. Win Prizes: Prizes (Stanley mug) will be randomly awarded for 100% accuracy - reporting all of the phish **AND** not falling susceptible (clicking links, opening attachments, etc.). [See the FAQ and Prize section for details.](#)

Be sure to register for other fun and informative events.

October 8 at 1:00 PM ET - Join [Dr. Michael S. Scott](#) for an **exciting journey through the early days of malware** to today's complex cyber threats. We will delve into the history, highlighting how it has influenced cybersecurity practices and what lessons we can learn to protect ourselves today. Register [here](#).

October 16 at 1:00 PM ET - Digital Deception. **Is what you see really what you get?** Join our guest speakers from [SANS](#) on the **next level deception- deepfakes**. Discover how AI is reshaping what we trust and what we need to question! Register [here](#).

October 23 at 1:00 PM ET - Join [Dr. Michael S. Scott](#) as he takes us on a time machine back to the origins of cryptography. Take a **technical deep dive into the evolution of cryptographic ciphers** over the ancient and medieval periods and into both of the world wars. Register [here](#).

The more events you attend, the more chances you'll have at a prize!

Be Like a Chameleon and Adapt to New Threats

System Information Security

Published 10/9/2024

As we glide into fall, Cybersecurity Awareness Month will be in full view. System Information Security will host fun and informative sessions throughout October. Get ready for the annual phishing tournament and reel in a prize.

The Office of the Chief Information Security Officer (OCISO) is celebrating Cybersecurity Awareness Month with the theme of "Data is in Plain View." The chameleon theme not only signifies how we must adapt to constantly morphing threats but also how so much of our information seamlessly hides in plain sight. It's our job to protect that information from accidental (or intentional) disclosure.

Join one (or all!) of our events happening in October. The more events you attend, the more chances you'll have at a prize!

- Oct. 8, 1 p.m. ET – Jump in the malware time machine! Ever wonder how malware progressed from pranks to major threats? Join our guest speaker [redacted] to trace the evolution of malware over time. Register in [redacted]

- Oct. 15-18 – Sharpen your instincts with the 2024 Phishing Tournament. Be sure to review the [Rules and FAQs](#) and [sign up](#) by Oct. 4.

- Oct. 16, 1 p.m. ET – Think you can spot a fake? Think again! Join guest speakers from [redacted] to decode the digital chameleons threatening our security. Register in [redacted]

- Oct. 23, 1 p.m. ET – Get ready to crack the crypto code! Join our guest speaker [redacted] and learn how cryptography has been used throughout history, including popular models. Register in [redacted]

Win stickers, water bottles or more!

Be vigilant, adapt your habits, and protect your data. Just like a chameleon hiding in plain view, your information could be exposed when you least expect it.

Be sure to check out the [Cybersecurity Awareness Month site](#) for these and more activities, including live interactive trivia events (non-Fed) you can share and participate with your family and friends.
