HMM Reference NIST Technical Note 2205: Item 40 Between Deck Boards

Item 40 Between Deck Boards – Insert metal flashing between deck boards and joists can reduce ignition between deck materials.

Note: Selected photographs are included to illustrate each HMM hardening item. Additional vulnerabilities or hardening items may be seen in the photographs, but those are highlighted within their specific HMM item.

There is no CAD drawing for <u>Item 40: Between Deck Boards</u>

Please see photographs for illustrations.
