

NIST Notified Body (NB) Assessment Checklist – EMC Directive (EMCD)

November 15, 2015 (Version 1.0)

Checklist to Assess U.S Conformity Assessment Bodies (CABs) for Compliance
to the EU Electromagnetic Compatibility (EMC) Directive 2014/30/EU Notified Body Requirements
Annex III (Part A - Module B) – EU Type Examination

1. For the complete list of requirements that must be met in order to be designation (notified) to the EU by NIST, please refer to the following document: *NIST Requirements and Application Instructions for U.S. Conformity Assessment Bodies – Notified Body Status for the EU EMC Directive (Version 1.0)*.
2. The first column of this checklist identifies the EMC Directive requirements (specific to NBs) and **additional NIST requirements** (where needed). The first column also identifies the reference to the relevant clause of the EA 2/17 INF: 2014 cross reference table of the requirements on Decision (EC) 768/2008 and the applicable conformity assessment standards.
3. The second column of this checklist provides a place for the CAB to identify the relevant document reference within its quality system (policies, procedures, or other documents as required) that demonstrates compliance.
4. The 3rd, 4th, 5th columns of this checklist are used to indicate whether the CAB meets the particular clause (YES, N/A, NO).
5. The 6th column of this checklist should be used by the Accreditation Body (AB) assessor(s) to record comments.
6. If the CAB is being assessed to both the Radio Equipment Directive and EMC Directive, the assessor must first complete the *NIST NB Assessment Checklist for the Radio Equipment Directive* in full and then complete, at a minimum, the relevant requirements on **this checklist** identified with an “*” in the first column.

9.6 ASSESSMENT OF APPARATUS CONFORMITY					
<p>*ANNEX III: PART A: MODULE B</p> <p>EU Type Examination</p> <p>B.1 EU-type examination is the part of a conformity assessment procedure in which a notified body examines the technical design of an apparatus and verifies and attests that the technical design of the apparatus meets the essential requirements set out in point 1 of Annex I.</p> <p>B.2 EU-type examination shall be carried out by assessment of the adequacy of the technical design of the apparatus through examination of the technical documentation and supporting evidence referred to in point 3, without examination of a specimen (design type). It may be restricted to some aspects of the essential requirements as specified by the manufacturer or his authorized representative.</p>					
Annex III Module					

NB Assessment Checklist – EMC Directive

Knowledge Area / Requirement	NB Reference Document	Y	N A	N	Assessor Notes
<p>B.3 The manufacturer shall lodge an application for EU-type examination with a single notified body of its choice. The application shall include:</p> <p>(a) the name and address of the manufacturer and, if the application is lodged by the authorised representative, his name and address as well;</p> <p>(b) a written declaration that the same application has not been lodged with any other notified body;</p> <p>(c) the technical documentation. The technical documentation shall make it possible to assess the apparatus conformity with the applicable requirements of this Directive and shall include an adequate analysis and assessment of the risk(s). The technical documentation shall specify the applicable requirements and cover, as far as relevant for the assessment, the design, manufacture and operation of the apparatus. The technical documentation shall contain, wherever applicable, at least the following elements:</p> <p>(i) a general description of the apparatus;</p> <p>(ii) conceptual design and manufacturing drawings and schemes of components, sub-assemblies, circuits, etc.;</p>

<p>(iii) description and explanations necessary for the understanding of those drawings and schemes and the operation of the apparatus;</p> <p>(iv) a list of harmonized standards in full or in part the references of which have been published in the <i>official journal of the European Union</i>, and , where those harmonized standards have not been applied, description of the solutions adopted to meet the essential requirements of this Directive, including a list of other relevant technical specifications applied. In the event of partly applied harmonized standards, the technical documentation shall specify which parts have been applied;</p> <p>(v) results of design calculations made, examination carried out, etc.;</p> <p>(vi) test reports.</p>					
<p>Annex III Module B[*]</p> <p>B.4. The notified body shall examine the technical documentation to assess the adequacy of the technical design of the apparatus in relation to the aspects of the essential requirements for which examination is requested.</p>

<p>Annex III Module B</p> <p>B.5. The notified body shall draw up an evaluation report that records the activities undertaken in accordance with point 4 and their outcomes. Without prejudice to its obligations vis-à-vis the notifying authorities, the notified body shall release the content of that report, in full or in part, only with the agreement of the manufacturer.</p>					
<p>Annex III Module B.6</p> <p>B.6. Where the type meets the requirements of this Directive that apply to the apparatus concerned, the notified body shall issue an EU-type examination certificate to the manufacturer. That certificate shall contain the name and address of the manufacturer, the conclusions of the examination, the aspects of the essential requirements covered by the examination, the conditions (if any) for its validity and the necessary data for identification of the approved type. The EU-type examination certificate may have one or more annexes attached.</p>

<p>The manufacturer shall inform the notified body that holds the technical documentation relating to the EU-type examination certificate of all modifications to the approved type that may affect the conformity of the apparatus with the essential requirements of this Directive or the conditions for validity of that certificate. Such modifications shall require additional approval in the form of an addition to the original EU-type examination certificate.</p>					
<p>Annex III Module B *</p> <p>B.8.Each notified body shall inform its notifying authority concerning the EU-type examination certificates and/or any additions thereto which it has issued or withdrawn, and shall, periodically or upon request, make available to its notifying authority the list of such certificates and/or any additions thereto refused, suspended or otherwise restricted.</p>
