

NAVY HALON 1211 STUDY

DANIEL P. VERDONIK
HUGHES ASSOCIATES, INC.

WILLIAM L. ZACX

NAVAL WARFARE CENTER LAKEHURST

JAMES M. HOMAN
NAVAL AIR SYSTEMS COMMAND

MAY 8, 1997
PRESENTED AT THE

HALON OPTIONS TECHNICAL WORKING CONFERENCE

Halon 1211

Responsible Use Policy

- Minimize Use / Reliance on Halon 1211
- Recycling
- Alternatives Research
- Requirements Definition

NAVY HALON 1211 STUDY

Objectives

- Status of Navy Bank
 - Mission Critical Reserve
 - Installed Base
 - Local Supplies
- Minimize Use
 - Required Applications
 - Current Applications
 - Alternate Development Status
- Review and Formalize Hardware Requirements
- Re-focus Replacement RDT&E ?

MATERIAL BALANCE & VALUATION

- Mission Critical Reserve
 - Supplies
 - Shipments
 - Returns
 - Identify Users
 - Assess/record the application and use
- Local Supplies
- Installed Base
- Defined Tracking

REQUIREMENTS

- Halon 1211 on Aircraft Carrier Flightdeck
 - Result of USS NIMITZ Fire
 - P-16 Mobile Fire Fighting Vehicle (MFFV)
 - Twin Agent Units on Hanger Deck
 - Next Generation MFFV - No Halon 1211
- Agent Testing - April 5 - 6, 1997
 - Baseline Debris Pile Fire
 - NAWCWPNS China Lake, CA
 - AFFF / Halon 1211 / PKP
 - Validate Dual Agent Requirement

OTXER REQUIREMENTS

- Naval Safety Center Data
 - Fire Incidents for Halon 1211
 - 1992 - Present (pre-1992 available)
 - All Services
- Determine Historic Application
 - Quantity and Frequency
 - Assess Hardware Effectiveness
- Define Future Needs
 - Clean Agent versus Secondary Agent
 - Systems Available
- Identify any Differences in Navy Requirements

TRAINING

- o Historically Largest Use Driver
- o New Training Requirements
 - No halon 1211
 - Hand-held water portables
 - Modified nozzle
 - Similar “feel”

FIELD USE

- o Fleet and Shore-side Message
- o Define Current Usage
 - 1994 - present
 - Sorted by hardware (P-16, portables, etc.)
- o Fire Incident Details
 - Location / Threat
 - Agent Used
 - Quantity Used
- o Usage During Training
- o Agent Loss During Maintenance & Leakage

COMMERCIAL REQUIREMENTS

- Coordination with FAA
 - Different Roles
 - Manufacturer fully switched to halon 1211
 - PKP - no concern of corrosion
 - Different Ownership Issue
- Different Systems
- Different Operations

PRODUCTS OF STUDY

- Technology Assessment
 - Defined System Requirements
 - Specific Hardware Assessments
- Recommended Hardware Modifications
 - Re-focused Alternative RDT&E ?

NAVY HALON 1211 STUDY

- Halon 111 Portable Fire Extinguishers
 - C-9: ne 2.5 # and one 13 #
 - C 20: two 2.5 #
 - C-12: two 2.5 #
 - C-135: four 5 #
 - C-24: one 5 #, one 17 # two 10 #
 - H-57: one 2.5 #
 - T-44: one 2.5 #
