General Comment

As a person with a disability, I have faced barriers to voting through polling places that were not accessible to wheelchair users, poll staff denying entrance to my service dog in the polls with me and discriminatory treatment when I show up to vote. I have the ability and desire to vote and the only thing preventing me is human ignorance and out-dated technology and compliance to federal and state laws mandating equal access for voters with disabilities. PLEASE do not further restrict my right to vote.
