

Industry Forum: Monitoring, Diagnostics, and Prognostics for Manufacturing Operations Notice of Sponsorship Opportunity

About the Forum

The National Institute of Standards and Technology (NIST) will host an Industry Forum to bring Industry, Government, and Academia together to discuss the current trends, successes, challenges, and needs with respect to advanced monitoring, diagnostic, and prognostic technologies to enhance maintenance and control strategies within manufacturing operations. This event will bring together professionals to discuss the current and emerging capabilities and challenges with respect to designing, deploying, verifying, and validating monitoring, diagnostic, and prognostic technologies for manufacturing operations including those involving interconnected, Internet of Things (IoT) technologies.

Pricing

Each commitment level offers unique opportunities. Choose see below our commitment levels. Please confirm your commitment by December 15, 2017.

Contact

Anyone interested in a sponsorship should contact: Brian Weiss, NIST, 301-975-4373
