

# VVSG Testing Constituency Group

February 8, 2016 Update

# The Discussion So Far

- Structure of a testable VVSG
  - Requirement
  - Formal/Structured Language
  - Test Assertions
- Levels of VVSG
  - Technical
  - Functional
  - Geographic
- Testing and Auditing via Common Data Format

# Upcoming Tasks

- Set up submission processes to validate testability of requirements and identify conflicts
- Work with Interoperability Working Group to determine CDFs for auditing and testing
- How to engage state certifications with VVSG requirements
- Propose process for interim changes to the VVSG
- Determine how to judge pass/fail on subjective criteria
- How to test COTS
