Technology Ventures Corporation

Technology Ventures Corporation (TVC) identifies technologies with commercial potential, coordinates the development of business and management capabilities, and seeks sources of capital investment for entrepreneurs and startups. TVC is a corporate charitable foundation funded by Lockheed Martin Corporation and the U.S. Department of Energy.

Since 1993, TVC has helped form 121 new companies, facilitated $1.2B in investments, and helped generate 13,518 new technology jobs in the state of New Mexico.

The TVC Deal Stream Summit fosters private investment partnerships among innovators with the labs, investors, and entrepreneurs. This annual summit allows hundreds of companies to receive funding that fuels the commercialization of Sandia’s research and development.

Community Involvement

Sandia National Laboratories is the largest corporate contributor to the United Way of Central New Mexico. Our employees and retirees contributed more than $4.6M in 2012.

Lockheed Martin—on behalf of Sandia National Laboratories—donated over $1.4M to local community nonprofit organizations during 2012.

Our employees, retirees, and contractors logged over 100,000 volunteer hours; 260 employees received the President’s Volunteer Service Award.

Our volunteer activities included participating in Make a Difference Day, completing our 12th Habitat for Humanity home, being part of regular-employee Blood Drives, and cleaning facilities at local orphanages.

Employees generously donated more than 2500 books, a truckload of school supplies, 450 holiday gifts, and 500 pairs of new shoes to local children.

K-12 Education Partnerships

Family Science Night provided an evening of bilingual, hands-on science for more than 4,200 students and their families at 55 elementary schools.

Manos, Dream Catchers, and HMTech programs encouraged over 350 underrepresented youth to consider science, technology, engineering, and math careers.

Over 500 middle and high school students participated in the New Mexico Regional Department of Energy Science Bowl and over 250 middle school students participated in the NM Hydrogen Fuels Challenge.

Sandia supports science and math teacher professional development including scholarships for National Board Certification in science or math, conferences, and workshops.
