

# **National Advisory Committee on Windstorm Impact Reduction (NACWIR) Member**

**Parthiv A. Dangodara, P.E.  
Global Windstorm Specialist  
AIG**

Mr. Dangodara's expertise is in the wind-loss insurance industry. He has a Bachelor of Science (B.S.) degree in electrical engineering and an extensive background in windstorm risk assessment and loss prevention. Mr. Dangodara is a Global Windstorm Specialist with the Property Casualty component of the American Insurance Group, Inc. (AIG).

Prior to joining AIG, Mr. Dangodara worked for 15 years with the Factory Mutual Insurance Company (commonly known as FM Global) as a Loss Control Specialist and a Wind Specialist. FM Global is a market leader among commercial property insurers in the U.S., which specializes in loss prevention services primarily to large corporations throughout the world in the Highly Protected Risk (HPR) property insurance market sector. Mr. Dangodara has conducted numerous HPR facility risk audits covering the following areas:

- critical facilities, including hospitals;
- manufacturing facilities, including semiconductors and computers, pharmaceuticals, boats, warehouses, juice and dairy, newspaper printing, machine shops, pulp, paper and plywood mills, and cement plants; and
- infrastructure and lifeline facilities, including telecommunications switching facilities, power plants, substations, co-generation facilities, waste processing plants, and airplane hangars.

He conducted several hundred field surveys and wind loss investigations through his work at AIG and FM Global, and as a RICOWI Wind Investigation Team Member.
