This Bulletin provides an update on forensic science standards that are moving through the development process at Standards Developing Organizations (SDOs), and those that are moving through the registry approval process at the Organization of Scientific Area Committees for Forensic Science (OSAC).

Please consider providing comments on documents that are open for public comment.

**OSAC Registry Standards open for public comment**: 0 Items
**SDO Documents open for public comment**: 4 Items

---

**OSAC REGISTRY NEWS**

**Items Open for Public Comment**
There is currently nothing open for public comment in the OSAC Registry approval process.

**Standards Moving Through the OSAC Registry Approval Process**
This section only lists standards that moved from one step in the OSAC Registry approval process to another during the last month. A list of all standards currently under consideration is available on the OSAC website.

**ASTM E2388-11 Standard Guide for Minimum Training Requirements for Forensic Document Examiners** has been withdrawn from the Standards and Public Comment Adjudication Phase at the request of the Forensic Document Examination Subcommittee until further action is taken by the Subcommittee.

**OSAC Draft Standards Submitted to Standards Developing Organizations (SDOs)**
OSAC developed the following draft standards and has submitted them to SDO’s for formal development:

- **Biological Data Interpretation & Reporting**
  The following draft standards were submitted to American Academy of Forensic Sciences/American Standards Board(AAFS/ASB):
  - **Standards for Validation Studies of DNA Mixtures, and Development and Verification of a Laboratory’s Mixture Interpretation Protocol**
  - **Validation Standards for Probabilistic Genotyping Systems**
  - **Standards for Forensic DNA Interpretation and Comparison Protocols**
Biological Methods Subcommittee
The following draft standards were submitted to AAFS/ASB:

- Standards for Forensic DNA Analysis Training Programs
- Best Practice Recommendations For Assessing Educational Requirements For Forensic DNA Analysts
- Standards for Internal Validation of Forensic DNA Analysis Methods
- Standards for Internal Validation of Human Short Tandem Repeat Profiling on Capillary Electrophoresis Platforms

Wildlife Forensics Subcommittee
The following draft standards were submitted to AAFS/ASB:

- Wildlife Forensics General Standards
- Wildlife Forensics Report Writing Standards
- Wildlife Forensics Morphology Standards
- Wildlife Forensics DNA Standards
- Wildlife Forensics Validation Standards – Sequencing
- Wildlife Forensics Validation Standards – STR Analysis

STANDARDS DEVELOPING ORGANIZATION (SDO) NEWS

Public Comment Period Open on Draft Documents
American Academy of Forensic Sciences (AAFS) Academy Standards Board (ASB):
The public comment period is open for the following:

- ASB Best Practice Recommendation 037, Guidelines for Opinions and Testimony in Forensic Toxicology, First Edition (Comment period closes Monday, November 27, 2017)

Please visit the Notification of Standard Development and Coordination area of the AAFS Standards Board website to view the draft documents and to provide comments. Please send any questions to asb@aafs.org.

New Standards
These new standards are eligible for consideration by OSAC:

Revised Standards
These revised standards are eligible for consideration by OSAC:

- [ASTM E1610 - 17 Standard Guide for Forensic Paint Analysis and Comparison](https://www.astm.org) has been revised and published.

- [ASTM E1732 - 17 Standard Terminology Relating to Forensic Science](https://www.astm.org) has been revised and published.

OTHER NEWS

Office of the Forensic Science Regulator, United Kingdom
The Forensic Science Regulator seeks views on the following draft guidance documents. Both consultations close 05 November 2017.

- [DNA mixture interpretation: draft guidance](https://www.gov.uk) Comments on this draft guidance should be sent on the feedback form provided to [FSRConsultation1@homeoffice.gsi.gov.uk](mailto:FSRConsultation1@homeoffice.gsi.gov.uk)

- [DNA mixture interpretation software validation: draft guidance](https://www.gov.uk) Comments on this draft guidance should be sent on the feedback form provided to [FSRConsultation2@homeoffice.gsi.gov.uk](mailto:FSRConsultation2@homeoffice.gsi.gov.uk) and should be submitted by 05 November 2017.
