

FY2018

Weights and Measures Directory

Directory of Weights and Measures Officials in the United States and Territories

How to Search in a PDF Document

If you are looking for a specific State, City, County, or Name in a PDF document, there are two utilities which can be very helpful.

Quick "Find"

Step 1: Open the document in your PDF reader. In most cases, this can be done by clicking on the file or link.

Step 2: For a quick search, do one of the following:

- Select Edit > Find in the main menu, or
- Press "Ctrl-f" ("Command-f" or "Apple-f" on a Mac).

Step 3: Enter the word or phrase you are looking for in the form field provided and press "Enter" or "Return".

In most applications, the first instance of the word or phrase in the document will be highlighted. You jump to the next instance by clicking on the right arrow found next to the search box or pressing "Ctrl-g". Likewise you can return to an earlier instance using the left arrow or pressing "Shift-Ctrl-g".

Office of Weights and Measures

Douglas Olson
