Bloodstain Pattern Analysis Bibliography

Bloodstain Pattern Analysis Research Task Group

Revision 2

Updated January 18, 2018

Contents

Preface	3
Aging Blood	4
Biomechanics	6
Case Studies	6
Clothing and Fabrics.....	8
Environment	10
Expiratory Blood.....	11
Firearms	12
Fluid Dynamics – Blood.....	14
Fluid Dynamics – other	19
Health and Safety.....	31
High-speed Video	32
Blood Substitute.....	33
Impact Patterns.....	33
Legal	36
Non-English	37
Other	38
Other Patterns	39
Overview Articles and Books	41
Pathology	44
Photography and Documentation	46
Physics and Math	48
Reconstruction	50
Reliability.....	53
Scientific Theory.....	55
Searching and Enhancement	56
Sequencing.....	62
Software.....	62
Target Surface	63
Training	63
Transfer Patterns	65

Preface

This bibliography historically began as the Bibliography Project generated by the Scientific Working Group on Bloodstain Pattern Analysis (SWGSTAIN) Research Subcommittee. This list has been updated and will continue to be updated periodically.

Literature related to bloodstain pattern analysis (BPA) was located in scientific journals, newsletters, technical reports, books, web pages, theses, conference papers, law reports and magazines. This is not considered a complete list on the topic of BPA.

The BPA Research Task Group would like to acknowledge Trent University for their ongoing support with this bibliography and acknowledge the contributions from the SWGSTAIN membership, the Midwest Forensics Resource Center, the Federal Bureau of Investigation, the Institute for Environmental Science and Research, Trent University and the Ontario Provincial Police for their initial support.

For edits or to recommend additional references, contact Kevin Winer (kevin.winer@kcpd.org).
