

Project Title: National Technology Roadmap for Photonics (NTRP)

Lead: University of Rochester

Award Number: 70NANB14H054

Posting Date: September 29, 2014

Once per month, each Technology Working Group (TWG) team will meet, some in person and others by teleconference and web meeting, to work on their individual roadmaps. The times will be set by the TWG leads. The physical location will be the Center for Emerging and Innovative Sciences at the University of Rochester, NY. Attendance is by invitation only.

There will also be inter-TWG meetings that will coincide with the major optics and photonics conferences in the US:

- **October 19-23, 2014** - OSA FIOS meeting, Tucson AZ
- **February 7-12, 2015** - SPIE Photonics West, San Francisco, CA
- **April 20 - 24, 2015** - SPIE Defense, Security, and Sensing, Baltimore MD
- **May 12-14, 2015** - OSA CLEO, San Jose, CA
- **August 9-13, 2015** - SPIE Optics and Photonics, San Diego, CA

These meetings will bring together the leaders of each of the TWGs and some of the team members to share progress and best practices, and discuss technical and business matters that cut across multiple TWGs. There will probably be some informational meetings at some of these conferences (most likely Photonics West), where we will present to the public the work of the NTRP program.

For information on joining the NTRP, please contact Paul Ballentine at paul.ballentine@rochester.edu or call (585) 748-1408.
