Revision May 2012

SOP 2

Table A-4 in the Appendix A was modified to include the value for the variable, M_v . It was omitted in the February 2012 version.

M_v	$18.01528(17) \times 10^{-3} \text{ kg m}^{-3}$
-------	---

Note: The values in parenthesis are extra digits from the reference paper (and not a multiplication factor).

Revision August 2013

Section 9, Reference Tables, Table 9.4

The column for 20 degrees of freedom in the numerator at the 4 degrees of freedom in the denominator down to infinity were the exact same values as the column for 8 degrees of freedom from 4 degrees of freedom down. These values were also incorrect in the 2003 version of this table.
