

AGENDA
Winter 2010 PSCR Demonstration Network Stakeholders Meeting

December 1, 2010					
7:30	9:00	Registration Check in to pick up your name tag and welcome packet			<i>Lobby</i>
9:00	9:30	Introduction & Logistics Opening remarks and a brief presentation on meeting logistics			<i>Auditorium</i>
9:30	10:15	Drive Test Video and Q&A Drive test video of the Demonstration Network and a Q&A			<i>Auditorium</i>
10:15	10:30	Break			
10:30	11:30	Demonstration Network Overview Discussion of how the Demonstration Network fits in the larger public safety broadband picture and what information and deliverables the Demonstration Network will produce			<i>Auditorium</i>
11:30	12:30	Demonstration Network Updates Updates from the four Demonstration Network working groups and information about the Demonstration Network architecture			<i>Auditorium</i>
12:30	1:30	Lunch			
1:30	3:00	QoS, Priority, and Pre-Emption Discussion of how best to architect the network in order to test QoS, priority, and pre-emption	1:30	3:00	LTE Training Public safety practitioners are invited to this two-hour overview of LTE technology
3:00	4:15	Security Discussion of common security schemes for the Demonstration Network and for SIM cards	3:30	4:00	Lab Tour Group A See the Demonstration Network in action by touring PSCR's labs
4:15	5:30	Roaming, Billing, and Fraud Detection Discussion of how roaming, billing, and fraud detection are done in the commercial market and how the Demonstration Network will test them			<i>Auditorium</i>

December 2, 2010					
			8:00	8:30	Lab Tour Group B
8:30	9:00	QoS, Priority, and Pre-Emption & Security Session Recap Review and discussion of outcomes from the Day 1 QoS, Priority, and Pre-Emption session and Security session			<i>Lobby</i>
9:00	10:00	Devices Discussion about the device marketplace and public safety's requirements			<i>Auditorium</i>
10:00	10:15	Break			
10:15	11:45	Testing & Upgrades Discussion of the various forums for testing eNodeBs, devices, and EPCs	10:30	11:00	Lab Tour Group C
			11:00	11:30	Lab Tour Group D
11:45	12:45	Lunch			
			12:15	12:45	Lab Tour Group E
12:45	2:00	FCC Update and Interoperability Discussion The FCC will provide an update on regulatory activities and discuss public safety broadband nationwide interoperability			<i>Lobby</i>
2:00	3:15	Technical Issues Seminar Learn from three industry representatives about passive intermodulation testing, voice over LTE, and application management and standards			<i>Auditorium</i>
3:15	4:15	Future Planning for LTE Testing Discussion of public safety's long-term research, development, testing, and evaluation needs			<i>Auditorium</i>
4:15	4:30	Wrap Up and Closing Remarks			<i>Auditorium</i>
