HISTORY OF THE NBS/NIST GALLERY

In the early 1970s NBS Director Lewis Branscomb authorized the establishment of a gallery of portraits of distinguished scientists, engineers, and administrators. Originally, the gallery was limited to a wall in the Lunch Club; now known as the Heritage Room. The expansion into the alcove took place in 1985 under Director Ernest Ambler, who asked the newly established Standards Alumni Association (SAA) to assume the responsibility for establishing criteria for selection and a process for soliciting nominations from the staff and managers of the institution.

The SAA Portrait Committee annually issues a call for nominations, empanels a jury which meets to evaluate the nominations, and forwards its recommendations to the NIST Director for approval. The Committee displays the portraits and biographical information for the honorees and organizes an annual induction ceremony. Over the past 30 years, the Gallery has grown to 311 portraits, with newly allocated space along the cafeteria wall and the installation of a Digital Portrait Gallery at Gaithersburg and Boulder in 2013.

2015 NIST/SAA Portrait Ceremony Recognizing Seven New Honorees

We are presenting seven honorees whose portraits will be added to the NIST Portrait Gallery today. After an introduction, the honorees or their representatives will be called forward one by one; their accomplishments will be featured in presentations by leaders of NIST organizational units. The honorees will receive a folder with documentation, and will be given the opportunity to make some remarks. A portrait viewing will follow the ceremony.

PROGRAM

Opening Comments	James F. Schooley, President, SAA
Welcoming Remarks	Willie May, Director, NIST
Presentations	Richard N. Wright, Chair, Portrait Gallery Committee

Ared Cezairliyan MML Years at NIST: 1963-1997
For pioneering development of ultrahigh-speed dynamic techniques for thermophysical property measurements of metals in both solid/liquid phases at high temperatures and for exceptional leadership in the international thermophysics community.

Robert D. Cutkosky PML Years at NIST: 1955-1991
For providing standard weights and measures over a career of realizing electrical units of measure, and for creating basic electrical standards, electrical measurement systems, and measurement techniques.

Donna K. Harman ITL Years at NIST: 1988-2005
For vision, outstanding leadership, and technical excellence in establishing an innovative evaluation infrastructure leading to very significant advancement in the state-of-the-art in information retrieval and natural language processing.

Michael J. Kurylo MML Years at NIST: 1969-2003
For leadership in the measurement and critical evaluation of gas phase kinetics, photochemical, and spectroscopic data of trace atmospheric chemical species related to the ozone layer and environmental change.

Barbara C. Lippiatt EL Years at NIST: 1977-2013
For innovation and leadership in conceiving, developing, and implementing metrics and tools for sustainable buildings.

Francis J. Lovas PML Years at NIST: 1970-2000
For outstanding contributions to microwave molecular spectroscopy and data and their application to molecular structure, inter and intramolecular forces, and interstellar chemistry.

E. Clayton Teague EL Years at NIST: 1972-2011
For outstanding scientific leadership and advancement in scanning probe microscopy, nanoscale science and metrology, precision engineering, and surface microtopography measurement, leading to new measurement science, standards, and fields of research.

Closing Remarks and Acknowledgments Richard N. Wright
