

April 8, 2013

Mr. Adam Sedgewick
U.S. Department of Commerce
1401 Constitution Avenue, NW
Washington, DC 20230

Dear Mr. Sedgewick:

Wave is pleased to present the attached response to the NIST Request for Information for Developing a Framework to Improve Critical Infrastructure Cybersecurity. Wave believes this represents an excellent opportunity to fundamentally change our approach to internet security.

Wave would welcome the opportunity to be active participants with NIST in discussions and meetings as the Framework is developed in the coming months. If we may be of any assistance do not hesitate to reach out to me.

Regards,

Steven K. Sprague
CEO
Wave Systems Corp.
