

# National Initiative for Cybersecurity Education (NICE) Sub Working Group Charter: **K-12**

## 1. Description

Develop strategies and recommendations for filling the national cybersecurity pipeline through a K-12 Cybersecurity Education Strategy.

## 2. Goals and Objectives

To provide a mechanism in which public and private sector participants can develop concepts, design strategies, and pursue actions that advance cybersecurity education, training, and workforce development.

To provide a forum for the exchange of ideas among interested practitioners, researchers, developers, and students in the changing field of cybersecurity. In support of this forum, the K-12 subgroup focuses on educational aspects of current, emerging, and at times novel K-12 cybersecurity paradigms, frameworks and standards and addresses those aspects through an open process for multiple stakeholders to provide input to coordinate, revise, accelerate and harmonize national K-12 cybersecurity education initiatives.

To foster activities for advancing K-12 cybersecurity education and highlight strategies that address the goals of the NICE Strategic Plan.

## 3. Organization and Operation

The following sections describe the subgroup structure, membership functions, meeting times and locations, and new member acceptance.
