

Mr. Paul Centolella

President, Paul Centolella & Associates and Senior Consultant, Tabors Caramanis Rudkevich

Paul Centolella has more than 35 years of experience in energy economics, law, and regulation. His work has contributed to the development of environmental and electric power markets, grid modernization, and the evolution of utility business and regulatory models. Mr. Centolella advises clients and provides expert testimony on utility regulation and pricing, utility business and regulatory models, power markets, energy sector innovation, and applications of smart and clean energy technology. He is a former Commissioner on the Public Utilities Commission of Ohio. He currently serves on the U.S. Secretary of Energy's Electricity Advisory Committee, where he Chairs the Smart Grid Subcommittee. He was a member of a National Academy of Sciences Committee on adoption of advanced energy efficiency and clean energy technologies, which published its report, *The Power of Change: Innovation for Development and Deployment of Increasingly Clean Electric Power Technologies*, in September 2016, and the Advisory Committee for the MIT *Utility of the Future* study, released in December 2016. He also has served on the Electric Power Research Institute's Advisory Council, the Governing Board and Board of Directors for the Smart Grid Interoperability Panel (SGIP), and the Board of the Organization of PJM States.
