Subject: NIST CSF v1.1 comments

Good Morning,

I would like to ensure that the new NIST SP 800-171r1 is included as a reference and possible an Addenda to ensure that Non Federal organisations that do not process classified information or systems have a baseline to aim towards. Most small-medium organisations (private) do not have a starting point for ensuring security controls are implemented, nor audit compliance can be fully ascertained.

Kind Regards

Glen Strickland
