OSAC Registry Approved Standards
FY 2016

The Organization of Scientific Area Committees (OSAC) for Forensic Science Registry serves as a trusted repository of high-quality, science-based standards and guidelines that address discipline-specific forensic science needs. Documents posted on the OSAC Registry have been developed using a consensus-based process that allows participation and comment from all relevant stakeholders and have been assessed to be sound by forensic science practitioners, academic researchers, measurement scientists and statisticians.

The following three documents were effective on the OSAC Registry at the end of fiscal year 2016 (ending September 30, 2016):

Fire and Explosion Investigation

Seized Drugs

Interdisciplinary
