The Organization of Scientific Area Committees (OSAC) for Forensic Science Registry is a repository of high-quality, technically sound standards and guidelines that address discipline-specific forensic science needs. Documents posted on the OSAC Registry have passed a rigorous technical and quality review by OSAC members, including forensic science practitioners, research scientists, statisticians and legal experts.

The following 37 documents were effective on the OSAC Registry at the end of fiscal year 2020 (ending September 30, 2020):

**Biology/DNA**

**Bloodstain Pattern Analysis**

**Digital Evidence**

**Disaster Victim Identification**

Dogs & Sensors

Facial Identification

Fire and Explosion Investigation

Materials (Trace)

Odontology

- ANSI/ADA 1058-2010D *Forensic Dental Data Set* (effective February 14, 2019).

Seized Drugs

Toxicology

Wildlife Forensics

Interdisciplinary
