General Comment

Voting rights are essential to the United States democracy. All adult citizens have the right to vote regardless of their socioeconomic or dis/ability status. Excluding low income and adults with disabilities from voting by creating barriers to access is unconstitutional. Mail in and other available methods insure this constitutional right to vote. Creating barriers for political gain is not acceptable and damages lives of citizens as well as creating "elite only" voting. Barriers generate mistrust in the justice of our democracy.

Please do not allow individual states/districts to determine who is eligible to vote in districts by limiting available pathways to vote/creating unnecessary barriers to voting.
