General Comment

Some of the barriers with voting that individuals with disabilities face include issues getting to and from voting sites, having an early voting mail in option is essential for this reason. Some individuals are bed-ridden.

The mail- in voting option and plenty of local neighborhood USPS blue drop-off mail boxes enable voters to vote privately and independently in the United States.

The United States can improve voter access for people with disabilities by providing free transportation to and from voting sites, ensure mail-in ballots are provided and blue USPS drop-off boxes are accessible in each local neighborhood to mail in votes.
