## General Comment

I am in support of the Voting Rights regulations as well as the We The People's Act. As a disabled American, in person voting can be quite difficult with mobility problems. Equality in ACCESSIBLE Voting Rights is Constitutionally guaranteed and the Government of the People's representatives should be doing everything in their power to secure the Rights of Equal Access to the Voting Booth! We need extended periods in order to vote and keep our doctor's appointments. We need mail in voting and automatic voting registration to keep Americans and especially those with disabilities or economic disadvantaged. Voting is a Constitutional Right and Republican efforts to amend, suppress or deny that Right to their constituents is reprehensible.
