General Comment

Ensuring that disabled voters have full and equal access to the ballot box is not optional—it is a federal mandate that must be realized. Policymakers have numerous tools available to improve election systems and make them more accessible, and they must employ them now with all urgency before the next major election. To substitute my comments, I am attaching an exceptionally rigorous overview of voting accessibility, accommodation, barriers and proposed solutions relevant to this discussion from The Center for American Progress. This information should be a desk reference for every election official and lawmaker. Thank you.
