## General Comment

My name is Allen Grant and I reside in North Carolina, specifically Gaston County. I am blind and when I went to vote I had to get assistance. After requesting the AutoMark machine the device indicated error found. I was then told by poll workers that they did not know anything about the machine. This has actually occurred the last two times I have visited the pole. I was not able to cast my vote independently. It seems like there needs to be training on these machines.
