## General Comment

I have used a wheelchair for 45 years and have been involved in these issues for a very long time. We should all be able to vote absentee for no reason. We need Saturday voting as well. Many poll workers are not trained to interact with persons with disabilities nor the ADA equipment. I have had poll workers make very derogatory comments about the ADA machines or try to dissuade me from voting. Years ago, we voting in the basement of our small town library. The elevator broke and my husband had to bump my wheelchair down many steps. After that, our precinct was moved to the fire hall. Many people complained about the fumes, etc. I have also been on our statewide ballot in 2020. I care deeply about voting rights. Third parties are also highly restricted....including in the redistricting efforts. I have never NOT voted...including when I was hospitalized or out of the country. Thank you.
