General Comment

I am blind & have difficulty with any written forms unless they are large fonts or Braille. Early voting for blind seniors is so important because our opinions really do matter. Scan forms are upmost impossible for blind low vision to fill in. We don't have readers in the most part. Also drive-thru voting on metro mobility really assists me for ADA because like all my friends are unable to drive due to blindness/mobility issues, & can't get to voting polls due to limited hours of operation. Metro doesn't wait all day for you. You never know how long you will be waiting to get transportation back home just to vote. Please keep in mind disabled whether it be visual or medically need prior accommodations to voice our vote on tablets, by reader assistance, accommodations at voting machines, early mail-in voting etc. We should have the right/ privilege to vote not discounted or forgotten because we are disabled and/ or seniors. I feel there is discrimination to race ,dusabilities\$ age if there are limitations are imposed on Texans at this time. We are the people, & our voices with ADA should be accepted, counted, & most of all recognized as a Texan & importantly an American .
