General Comment

Mail-in/drop-off ballots with a two weeks voting window is essentially a protection of my rights under the ADA. It is reasonable accommodation which allows me to fulfill my duty and right as a citizen to vote. I'm blessed to live in Washington state where this is how we have voted since 2012. I have strong political leanings but I believe in democracy first and foremost. I served as a Census Enumerator and swore to uphold the constitution. Every eligible voter has a right to vote. We need to make it accessible to all people with disabilities. To protect our privacy, any accessibility measures should be universal.
