Intent of Cybersecurity Labelling Scheme

CONSUMERS
Making cybersecurity provisions transparent to consumers and enabling them to differentiate against poorly secured devices

DEVELOPERS
Help manufacturers to differentiate themselves in the market and thus, incentivise manufacturers to produce more secure devices

ECONOMY
To grow the economy, working with International Partners for mutual recognition to reduce duplicated testing and improve market access

- Reduce attack surface, enhance security
- Safer & more secure cyberspace
Cybersecurity Labelling Scheme
BY CYBER SECURITY AGENCY OF SINGAPORE

3rd Party Independent Testing
Developer Declaration of Conformance

LEVEL 1
Meet Basic Requirements

LEVEL 2
Developed using Security-by-Design

LEVEL 3
No Known Vulnerabilities

LEVEL 4
Resilient against common attacks

Tier 3 - Software Binary Analysis
Tier 2 - Lifecycle Requirements
Tier 1 - Security Baseline Requirements

1. Robust & Comprehensive: Caters for consumers, developers and economy
2. Flexible & Cost Effective: Combination of self-declaration and 3rd party independent testing caters to different needs and risk appetite
3. Mix of soft & hard lever: Primarily voluntary scheme; Mandated for specific critical devices (e.g. Wi-Fi router)
4. Interoperable: Leveraging on widely adopted standards to facilitate mutual recognition

Tier 4 – Pen Testing
Labelled products ....

- STAY CYBER-SAFE
- Koble Smart Hub (Zigbee)
- Philips Hue Bridge V2.1
- Aztech KSMT-110-WF Smart Station ValueClub S$69.00
- Aztech Zigbee Smart Hub ValueClub S$88.90
- PROLINK Xtend Pro Whole Home Mesh Wi-Fi System PR3420M
- HOME AUTO Zigbee WiFi Hub
- HOME AUTO Zigbee Wall Switch
- Pangolin
- Great news for Pangolin!

As of May 15, 2023, we are excited to announce that Pangolin has received Cybersecurity Label Certification by the Cybersecurity Agency (CSA) of Singapore, following stringent review process of Pangolin’s cybersecurity products and practices by the Singapore government.

This marks an important milestone for Pangolin, elevating its leadership in cybersecurity for homes and businesses in Singapore and beyond.
