

Joseph Rolli
Director of Business Development
Position Navigation & Timing

Joe Rolli is the Director of Business Development for the Position Navigation and Timing business area for L3Harris Corporation's Space and Airborne Systems Segment.

L3Harris's Space sector offers complete earth observation, weather, geospatial, space protection and intelligence solutions from advanced sensors, payloads and command and control ground networks. L3Harris's Airborne domains offers defense intelligence, electronic warfare platforms and commercial applications.

L3Harris Position Navigation and Timing business area is partly responsible for the Global Positioning System (GPS) Payloads for Block III, III, IIR, IIRM, IIF and the Next Operational Control Segment (OCX) programs. In 2019 L3Harris was awarded the prime contract for AFRL's Navigation Technology Satellite Three (NTS-3).

Rolli has been with the company for over thirty-five years, his current role is the Director of Business Development for the Positioning, Navigation and Timing (PNT) business area. In this role Rolli was responsible for developing and marketing PNT payload products and technology.

Prior to taking on the PNT Business Development position, Rolli was a Senior Program Manager for thirty years. He was the PM for several GPS Programs including Lockheed Martin's GPS IIR/IIRM Launch Operations and on orbit support and Space Missile Commands/NASA's JPL Modernized Space Receiver program.

Before joining L3Harris PNT BA, Rolli was Program Manager for L3Harris's Electronic Warfare Systems. He was the PM for several electronic countermeasures systems for the U.S. Air Force, U.S. Navy and foreign military sales programs.

Rolli studied Business at Caldwell University. Program Management Fast Track at Boston University. He also has a VBSS Green Belt from the University of Michigan. Rolli is also a long-time member of the institute of Navigation ION.

Rolli is married to his wife Carol for thirty-five years, his son Joseph graduated from Rutgers ROTC and is a Major in the USAF. His daughter Samantha graduated from the University of Michigan and is Sr. Key Account Manager for the Anheuser-Busch Corporation in St Louis.
