## IMPACTS
National Initiative for Cybersecurity Education

### Collaborating
- **2,210** Members of the NICE Community Coordinating Council
- **173** Guest interviewees & article authors
- **75** Planning Committee Members

### Creating
- **52** Publications Developed
- **19** One Pagers
- **10** Success Stories
- **6** Posters
- **11** Reports & White Papers
- **6** NISTIRs & Special Pubs

### Sharing
- **256** Articles about our work in the news media since tracking began in April 2018
- **88** Webinars, Forums, Summits, & Symposiums
- **30** Conferences & Workshops

### Events:
- **38,404** NICE News subscribers
- **17,199** NICE followers
- **1,000+** Comments received on the NICE Framework

---

### Quote from the Community

“While strides have been made, the language used to discuss cyber work is inconsistent. This hinders the Nation’s ability to assess capabilities, identify skill gaps, and prepare the pipeline of future cyber talent. The NICE Framework gives us a source to help mitigate that.”

A Program Lead at the Office of Chief Information Officer, US Department of Defense
