

JOIN THE NICE K12 CYBERSECURITY EDUCATION COMMUNITY OF INTEREST GROUP IN CELEBRATING CYBERSECURITY CAREER AWARENESS WEEK:

HOW TO ENGAGE IN CYBERSECURITY CAREER AWARENESS WEEK

OCTOBER 13, 2022 / 3:30-4:30 PM ET

To help shed light on ways and means to engage your audience in Cybersecurity Career Awareness Week, the NICE K12 Cybersecurity Education Community of Interest has prepared a special panel lineup that will share a wide range of exciting ideas.

Kristi Rice, a former Presidential Cybersecurity Educator Awardee, and students from Spotsylvania High School will discuss how they celebrate (during their career spirit week) and will share activities and events that have proven to be successful in promoting careers in cybersecurity.

Students will be dressing up as their favorite character related to cybersecurity and explaining how the costume activity serves as a springboard to discuss the cybersecurity topic and skills needed to support the cybersecurity workforce.

The virtual presentation will take place during the regularly scheduled NICE K12 Cybersecurity Education Community of Interest monthly meeting. The session is open to all, and attendees are encouraged to come dressed in a costume relating to cybersecurity.

Costume Examples: Phishing, malware, Pen Tester, SOC Analyst, Cyber Teacher, etc...

NICE
NATIONAL INITIATIVE FOR
CYBERSECURITY EDUCATION

WHAT ACTIVITIES CAN HELP PROMOTE CYBERSECURITY CAREER AWARENESS?

WHAT ARE EXAMPLES TO PROMOTE DISCUSSION?

WHAT ARE EXAMPLES OF SUCCESSFUL COMMUNITY OUTREACH?

HOW CAN EDUCATORS AND OTHERS PROMOTE CYBERSECURITY PATHWAYS?

The virtual presentation will take place during the regularly scheduled monthly K12 Community of Interest meeting.

The presentation is open to all.
