Within the “NIST Cybersecurity Framework 2.0 Concept Paper: Potential Significant Updates to the Cybersecurity Framework” document that NIST published in January, there is a call to action on page 5 pertaining to mapping NIST CSF 2.0 to other cybersecurity resources. I would like NIST to consider mapping NIST CSF 2.0 to the Secure Controls Framework (SCF). The SCF currently maps to over 100 cybersecurity and privacy-related laws, regulations and frameworks. It currently includes mapping to NIST CSF v1.1.

Respectfully,

Tom Cornelius, CISSP, CISA, CRISC, CDPSE, CIPP/US, PCIP, MCITP, MBA
