TKS Standardization

• Line edits for syntax and Authoring Guide conformity

• Leverage NICE “Style Guide” for further standardization

• Generate PWWG-specific rules
How can we avoid multiple TKS Statements for common phrases in the PF (e.g., policies, processes, and procedures)?

Group commonly occurring phrases together with slashes.
How should TKS Statements generally refer to stakeholders?

[organization-defined stakeholders]
Example “Stakeholder” Statements:

Finalize privacy policies with approval from organization-defined stakeholders.

Identify third-party stakeholder roles and responsibilities to support privacy policies/processes/procedures.
Example “Combined” Statements:

Knowledge of how system/product/service inventories are organized.

Knowledge of existing policies/processes/procedures.
How can we streamline statements that contain assumed knowledge or activities?

Address assumed knowledge and activities within the taxonomy at a location TBD
Example Old “Assumed Knowledge” Statement:

Establish organizational roles, where necessary and feasible, to support third-party stakeholder privacy risk management responsibilities.
Example Updated “Assumed Knowledge” Statement:

Establish a role(s) to support third-party stakeholder privacy risk management responsibilities.
Example Retained “Organization Specific” Statement:

Knowledge of the organization’s contract management practices (e.g., storage, location, responsible entity).
Example Old “Assumed Activity” Statements:

Document organizational privacy values.

Maintain documentation of organizational privacy values.
Example Updated “Assumed Activity” Statement:

Document organizational privacy values.
