NICE is a community working together to advance an integrated ecosystem of cybersecurity education, training, and workforce development. NICE, led by the National Institute for Standards and Technology within the U.S. Department of Commerce (DOC), is committed to preparing, growing, and sustaining a cybersecurity workforce that safeguards and promotes America’s national security and economic prosperity.

The Cybersecurity Career Ambassador Program seeks to create a network of employers, educators, and others who serve as champions to prepare, grow, and sustain a diverse and skilled cybersecurity workforce.

WHAT WILL CYBERSECURITY AMBASSADORS DO?
Ambassadors will:

- **Inspire, engage, and inform** career seekers and the public about the workforce demand, learning opportunities, and multiple career pathways available to pursue a career in cybersecurity

- **Demystify careers in cybersecurity** by showcasing the different learning pathways and variety of credentials that lead to careers identified as work roles in the NICE Workforce Framework for Cybersecurity (NICE Framework)

- **Support successful programs and resources** that develop a highly skilled and diverse workforce, especially those that increase the participation of women, minorities, veterans, persons with disabilities, and other underrepresented populations

WHAT IS EXPECTED OF A CYBERSECURITY AMBASSADOR?
Cybersecurity Ambassadors volunteer their time, passion, and energy to connect cybersecurity topics to the real world of work and share the wide range of cybersecurity career opportunities and the multiple pathways. Resources and support will be provided to enable Cybersecurity Ambassadors to effectively communicate cybersecurity career opportunities to learners and confidently deliver a range of activities such as career talks to multiple age ranges.

WHO CAN BE A CYBERSECURITY AMBASSADOR?
A Cybersecurity Ambassador is an individual who is passionate about cybersecurity and wants to share their enthusiasm for cybersecurity with others. The network of Ambassadors will comprise a wide range of stakeholders ranging from individuals that represent employers in the public and private sectors, labor and workforce development organizations, program sponsors, education and training providers, and non-profit and community-based organizations.
HOW WILL CYBERSECURITY CAREER AMBASSADORS ENGAGE CAREER SEEKERS?
Cybersecurity Career Ambassadors will engage with career seekers through a variety of different activities depending on your role. For example:

EDUCATORS:
- Integrate cybersecurity topics and content into learning experiences
- Highlight careers in cybersecurity by displaying posters, inviting guest speakers, and sharing videos
- Take students on a local field trip related to cybersecurity or introduce virtual experiences
- Host a student club or organization or serve as a coach for a cybersecurity competition
- Share resources and information with other educators (including media specialists and career counselors) about cybersecurity career pathways

STUDENTS:
- Form cybersecurity student organizations
- Participate in a cybersecurity competition
- Share information with parents, teachers, or faculty
- Hold special events during Cybersecurity Career Week
- Present to youth organizations or develop a cybersecurity community service program
- Serve as a teacher assistant for classes or facilitate activities for summer camps

EDUCATORS:
- Form cybersecurity student organizations
- Participate in a cybersecurity competition
- Share information with parents, teachers, or faculty
- Hold special events during Cybersecurity Career Week
- Present to youth organizations or develop a cybersecurity community service program
- Serve as a teacher assistant for classes or facilitate activities for summer camps

STUDENTS:
- Host a job shadowing opportunity or open house event
- Provide internships or externship opportunities for students and educators or other work-based learning experiences
- Provide professional development to reskill or upskill educators or current employees
- Offer your employees opportunities and support to obtain industry-recognized certifications
- Promote discovery and exploration of cybersecurity career opportunities

INDUSTRY REPRESENTATIVES:
- Host a job shadowing opportunity or open house event
- Provide internships or externship opportunities for students and educators or other work-based learning experiences
- Provide professional development to reskill or upskill educators or current employees
- Offer your employees opportunities and support to obtain industry-recognized certifications
- Promote discovery and exploration of cybersecurity career opportunities

CYBERSECURITY PROFESSIONALS:
- Share your career pathway story on social media
- Visit schools or institutions of higher education to raise awareness about careers in cybersecurity
- Advise or mentor others about cybersecurity-related career options
- Advise educators and faculty on how to integrate cybersecurity concepts into the learning process

WHY BECOME AN AMBASSADOR?
The benefits to becoming an Ambassador include:
- Be part of a network of Cybersecurity Career Ambassadors representing a wide range of stakeholders
- Engage with the community to share your expertise and help career seekers explore cybersecurity career opportunities
- Elevate your efforts to grow and diversify the cybersecurity workforce
